The handbook will be a source of information for you to refer to when questions arise concerning school. It should be kept as a reference at all times. While we have tried to make this handbook as comprehensive yet as clear and concise as possible, it is not meant to be a complete listing of all the rules under which we must operate. In all cases, common sense, as well as reasonable, prudent action should be our guide. **All of the policies in this handbook have been reviewed by the USD #467 Board of Education and are a part of Board of Education policies.** If there are questions about this handbook or any school procedure, feel free to discuss the matter with school administration.

Thank you and let's have a great year!

COMMUNITY SERVICE

Students must complete 2 hours of community service for every year of high school, totaling up to 8 as a requirement for graduation. **If a senior does not complete the required hours they will not be allowed to participate in the graduation ceremony.** Community Service is work or service done for the school, community or county. ALL Community Service hours must be completed outside of the school day unless prior arrangements are made with the high school administration and/or community service facilitator. Community Service does NOT include service for family members. If the community service is done outside of the community or

county special permission is required. It is the recommendation of the administration that each student complete 2 hours per year so as to not put off the entire 8 hours until their senior year. Students may turn in as many hours as they want, but will only be granted the 8 hours of community service. Students are not allowed to work ahead to fulfill this requirement but students may “catch up” on hours from previous years. For example, a junior who does not have any hours as of yet, may get 6 hours that year so that they are back on track. Any community service done in the summer time will count but the appropriate approval forms must be filled out in order to receive credit and turned in upon the start of the next school year in order to count. When a student moves into the district during high school, they are only responsible for the 2 hours required the year they enroll. Seniors that move into the district during the second semester of their senior year are exempt from this requirement.

The USD #467 Board of Education may, on recommendation of the high school principal and counselor, waive local requirements in excess of state requirements for graduation.

Any class offered during regular school hours through Garden City Community College during the school term will be enrolled in as concurrent credit and require tuition set by the college. The tuition and text book(s) for concurrent class(es) are the responsibility of the student. A final exam will also be required. Summer classes offered through G.C.C.C. will be designated as concurrent credit or only college credit at the time of enrollment.

Any class taken for high school credit, college credit, or concurrent credit by correspondence, online, or on campus must have written permission from the Principal before student enrollment.

Any class taken during the summer for high school credit or concurrent credit must be completed and the grade available to the Counselor by August 1 of the present school term

Online Classes for Concurrent and College Credit

- English I, II, III, IV, English Comp and AP Seminar

- ❖ The project or assignment is not required to be worth 20% of the semester grade for an elective course.

PROMOTION / RETENTION (7-8)

Retention of any student is a serious matter. The decision will be made only after careful consideration of the following issues: Academic capability and performance of the child; social development; physical and mental health; general intelligence; and communication skills. Recognizing that retention is most effective in the early years, maximum effort is directed at early identification. When evaluating these basic considerations, a variety of specific factors will be reviewed: social maturity, physical maturity and size, age and grade level, family status and relationship, attendance record, peer relationships, academic expectations, present developmental level, mental or physical handicaps, and school performance history. Students for whom retention is a possibility should be identified, if possible, before February 1 of each year. Exceptions may include late enrollees, unexpected developments such as injury, and inconclusive performance records. The classroom teacher should provide written notification to the principal on or before February 1st, when possible. Parents will be notified at the earliest practical time following the decision that retention is being considered. A conference involving, at the minimum, the teacher(s), parent(s), or guardian(s); and the principal will be held to discuss identified issues and concerns, with primary emphasis on the student's performance in the classroom. If a broader evaluation of factors governing student basic classroom performance is indicated, the parent will be advised. With concurrence of parents, a special services team will initiate such an evaluation. The team may consist of regular and special education teachers, speech therapist, psychologist and other appropriate personnel. The team will file a written report based on a comprehensive assessment within thirty school days.

Following the evaluation report, a second meeting will be held involving at least the classroom teacher, parents or guardians, and the principal. If a psychological profile is developed by the school psychologist, results will be presented to the parents in a separate conference. A decision of whether or not to retain will be made at the earliest practical time following these conferences but no later than May 1st, unless extenuating circumstances are involved. In 7th and 8th grade, students failing two or more core classes at the end of the school year may be retained in that same grade for another year, subject to this policy.

In order to address WC Jr. High students' successful academic progress, JH students that are **ineligible** will be required to attend Study Skills during the week they are ineligible. During this class time, ineligible students will be removed from Art, Band and Project Based Learning. Students will have the opportunity to receive help and guidance on course work. Once their grade(s) are raised to a 60 or better, the student will return to their regularly scheduled class.

ADMISSION REQUIREMENTS

All students enrolling in the district for the first time will be asked to provide personal information, such as a birth certificate and/or other documentation. WCJSHS will request the official transcript and permanent file of the student from the previous school.

All students attending WCJSHS must have a written designation of a parent/guardian on file as an official school contact. Students who are 18 or older are not allowed to serve as their own guardian.

ATTENDANCE POLICY

The attendance policy of USD 467 defines student attendance as an obligation of the student and the parent. The policy stresses the importance of consistent attendance with regard to successful academic performance.

The compulsory attendance law (K.S.A. 72-1113) makes it mandatory that any child who has reached the age of seven years and is under the age of eighteen years be enrolled in school. For exceptions, see (K.S.A. 72-1113)

Notification:

1. Parents/Guardians must confirm the student's absence by calling the WCJSHS office (620) 375-2213 prior to or on the day of the absence. After 48 hours, the absence will be considered unexcused.

Attendance Requirements

- 1. Each student will be allowed no more than 14 total days per semester for absences excluding school-sponsored activities and college visitation days. Grades but no credit will be given to those who exceed the 14-day limit unless the principal determines there are sufficient grounds to make an exception.**

Excused/Unexcused Absences

1. Excused absences require documentation within 48 hours of the marked absence and include the following.
 - a. Illness
 - b. Medical Appointments
 - c. College Visits
 - d. Funeral Leave
 - e. Court Appearances
 - f. Religious Observances
 - g. Participation in district-approved or school-sponsored activities.
 - h. Other reasons arranged for in advance with the building principal.
2. Unexcused absences:
 - a. Absences not excused by administration
 - b. Absences not supported with documentation within 48 hours by a parent/guardian or doctor.

College Visitation Days:

1. Juniors and Seniors may be excused for 2 College Visitation Days.
2. A College Visitation Form must be completed before the day of the visit with the required signatures (forms are available in the east/west hallway by the Counselor's Office)

Make-up Work Policy:

Students will have one day for every day missed to complete work missed due to the absence.

Truancy:

Kansas Statute states: "Any pupil who is inexcusably absent three consecutive days or five days in any semester or seven in a school year without an excuse is declared a truant and the county attorney will be notified. A pupil is inexcusably absent from school if he or she is absent from all or a significant part of a day without a valid excuse acceptable to the school official designated by the Board of Education to have a responsibility for the school attendance of such pupil" (K.S.A. 72-1113)

Tardy:

1. Tardy is defined as being late for any class or other obligation during school hours. Tardies may be excused for the same reasonable grounds as those considered for absences. Additionally, students detained by a teacher's request may be excused.
2. **Tardies will be cumulative toward unexcused absences. Two unexcused tardies will equal one unexcused absence.**

STUDENT BEHAVIOR CODE

Wichita County Junior-Senior High School is committed to a positive learning environment with student achievement the #1 goal. Student achievement has two parts: knowledge – the accumulation of facts and information from social studies, science, math, and other subject areas, and wisdom – the use of that accumulated information to develop a lifestyle of making positive choices. Recognizing diversities and establishing positive behavioral expectations will help ensure a school environment that is safe, secure, respectful, and healthy for all students. The following Six Pillars of Character will be the student behavior framework in which student achievement for all students will be strengthened:

- 1) Trustworthiness – honesty, reliability, courage to do the right thing
- 2) Respect – tolerance of differences, consideration of the feelings of others
- 3) Responsibility – self-control, thinking before acting, accountability for choices
- 4) Fairness – playing by the rules, open-mindedness, listening to others, not blaming others carelessly
- 5) Caring – kind, compassionate, forgiving, helpful
- 6) Citizenship – help to make school and community better, be a good neighbor, obey the laws and rules, respect authority, protect the environment

CLASSROOM BEHAVIOR

Teachers have a preference on how they wish to conduct any given class. It is the responsibility of each and every student to become familiar with the requests of each teacher and act accordingly. There is limited time available for the teacher and the class to cover the subject matter; therefore, the time should be put to good use.

Students are expected to have the proper books and/or materials ready when they enter the classroom. Talking, sharpening pencils, depositing materials in the wastebasket and similar movements should be done before the class convenes. Students who attend class to learn shall not have their rights of educational opportunity denied by those who do not wish to receive the benefits of an education. In order to accomplish this result, the teacher shall have the maximum opportunity to use the time available for schoolwork.

Students who are not in the classroom ready for the class to begin will be considered tardy.

Those students who cannot, or will not exhibit proper behavior, shall be removed from the class and not be allowed to interfere with the educational opportunity of the remainder of the class. When a student has been removed from a class, the school administration will determine what action is to be taken.

DISCIPLINE

A. Philosophy

Good discipline is usually positive rather than negative in nature. It is the result of keeping pupils interested and actively engaged in constructive and worthwhile learning activities, rather than punishing pupils for doing things that are destructive and anti-social. The purpose of discipline is to help the pupil to develop self-control with due respect for constituted authority.

Good discipline in schools is extremely important to the whole community but particularly important to the pupils, teachers, Principal, Superintendent, Board of Education, and parents. In the end, good discipline is important to the educational process for it is a vital factor influencing the kind of schooling pupils will receive.

WCJSHS realizes that there is more to the educational process than "book learning". It is this school's goal to teach responsibility, consideration, liability, and acknowledgment of acceptable and non-acceptable behavior in our society

B. Discipline

Good discipline is an absolute must throughout the school year so those educational goals can be met. If discipline problems should arise, the parent can expect to be in close communication with the school.

The principal is authorized to initiate short-term suspension (up to 10 days) and to recommend long-term suspension or expulsion of students who violate school policy or cause disruption to the school through their actions.

Students are to follow school rules at any school-sponsored function. All rules pertain to after-school as well as during school functions.

C. Forms of Discipline

It is the firm belief of the Board of Education, administrators, and teachers that the large majority of pupils are well-behaved, industrious, and eager to learn. The taxpayer's money and the school's efforts should not be misspent by permitting the few unruly pupils to waste time, upset classes and distract others who wish to learn. For a small percentage of the pupils who do not respond to a positive approach, punishment of some kind is sometimes necessary. When involving punishment or restraint, good discipline should be fair, dignified, and administered without anger or malice.

Possible disciplinary actions students and their parents must be aware that inappropriate behaviors result in consequences to be determined by the principal in consultation, if necessary, with the teacher involved. The consequences may include but are not limited to

1) Administrative conferences:

- a. The building administrator meets with the student to develop positive behaviors. The conference may include parents/guardians, and/or faculty, as well as the student.

2) Detention (JDB):

One of the first steps for punishment of a minor infraction will be detention before and/or after school. Failure to comply with the teacher's request will be considered an act of insubordination and will result in harsher forms of discipline. Detentions refer to an attempt by a teacher to aid the student in completion of work, or a 1st step procedure to resolve a disciplinary issue. The procedure is as follows:

a. 1st no-show:

- Principal will record the infraction in the student's file
- Student must still serve the 30-minute detention and may receive an additional hour of detention.

b. 2nd no-show

- Principal will record the infraction in the student's file

- Student receives two hours of detention

c. 3rd no-show

-Principal will record the infraction in the student's file and the student will receive a day In School Suspension (ISS)

-And a Parent-Student-Administrative conference.

3) Conduct Probation (JDC):

- a. Conduct probation may include non-attendance at school functions other than classes. A student on probation who causes further problems will be suspended.

4) Rescue Seminar:

Rescue Seminar is primarily provided to facilitate a student's educational progress; however administration may require a student to attend a Rescue Seminar instead of the regular discipline procedure when it is deemed that the Rescue Seminar will benefit the student's needs best.

All students in grades 7-12 that participate in an activity that requires eligibility will be required to attend Rescue Seminar if any of the following occur:

1. Student has an F in any one class for two or more consecutive weeks.
2. Student has an F in two or more classes in any one eligibility period.

Rescue Seminar will be held on Monday, Tuesday, and Thursday each week following first scheduled full week of classes at the beginning of each semester. This seminar will be open to all students wanting or needing help. Students will report to Mrs. West's room to sign in. They will then be allowed to go work with another teacher if available or remain in Mrs. West's room to work.

Consequences for not attending three days in a week:

Ineligible for the activity the following week unless the time is made up.

Students who raise their grades from an F to a D in each class for which they were ineligible will be excused from Rescue Seminar for the rest of the week IF they print off their grade report and have the teacher sign off that work is complete. The report must be turned in to the rescue seminar supervisor for the student to receive an exemption from Rescue Seminar. Student will remain ineligible for the remainder of the eligibility period –Monday to Monday.

5) In-School Suspension (Detention):

Students who cannot comply with the rules as stated may find the social aspect of school withheld for a period of one to five days. *Students are to report directly to the office upon arrival at school and will be in ISS until 3:30 p.m.* During In-school suspension, the student will be allowed to receive full credit for assignments completed on time. However, students will not interact with any other students during the school day and **will not** be allowed to attend or participate in extracurricular activities on the day they are serving the suspension.

6) Out-of-School Suspension and Expulsions:

Suspensions and expulsions are regarded as very serious matters and are the final disciplinary

means at the disposal of the duly authorized certified employees. During the out-of-school suspension, the student will be allowed to receive half-credit for assignments completed on time. Suspension may either be short-term or extended.

- Short-Term Suspensions are 1 to 10 days.
- Long-Term Suspensions are 11 to 45 days.
- Expulsion occurs when a student is removed from school for the remainder of the current school year. An expulsion may last for up to 186 school days and extend over two school years.

7) Other possible consequences:

- Written notification to parents
- Referral to the counselor, social worker, and/or building team
- Alternative educational placement
- Possible police involvement, if deemed appropriate for any offense
- Specific consequences agreed upon by the principal, parent, and teacher

CODE OF CONDUCT/CONSEQUENCES

PARENT-TEACHER MEETINGS

All meeting participants will work together to discuss students' needs in a courteous and respectful manner. When these conditions are not met, the meeting will end and may be rescheduled for another time.

Step 1: Conference/Detention

A school administrator will talk to the student and try to reach an agreement regarding how the student will behave.

- A. Warning
- B. Detention

Step 2: In-School Suspension

The student is removed from classes, but remains at school and in the in-school suspension room at WCJSHS. **The student will not participate in any extra-curricular activities on a day they are serving an in-school suspension.** Parent will be notified in writing or by phone. (Action to be recorded in student file)

- A – one to three days ISS or detention with the equivalent amount of hours
- B – three to five days ISS
- C – five days ISS

Step 3: Short-Term Out-of-School Suspension

The student will not be allowed to attend school for the determined amount of days. A parent will be notified. (Action to be recorded in student's file) The student is not to be at any school activities or on school property during the suspension.

- A - one to three days
- B – three to five days
- C - ten days

Step 4: Long-Term Suspension/Expulsion

The student will not be allowed to attend school, school activities or be on school property for a period of time as determined by the hearing committee.

A – ten-day OSS with referral to Expulsion Hearing

**Due process will be followed in all suspensions or expulsions.

HANDS OFF POLICY:

All students are expected to be responsible for themselves and their actions while demonstrating respect for other students. All students are required to keep their hands to themselves and avoid pushing, shoving, slapping, hitting, or other personal contact. This includes all student-to-student contact and public displays of affection (PDA).

DETENTION

Before school detention begins at 7:40 a.m. and ends at 8:10 a.m. After school, detention begins at 3:35 p.m. and ends at the discretion of the teacher or administrator. Student detention takes precedence over all extra-curricular activities, after-school jobs, or requests from teachers. If the student is late, a second day of detention may be assigned. The student must bring homework to do during detention. Talking and doing work not related to school is prohibited. If the student is absent from school on the assigned day of detention, the detention is automatically re-assigned for the first day the student returns to school. Missed detention time will result in the student's missed time being doubled.

SUSPENSION Two types of suspension will be used: In-School and Out-of-School.

An **in-school** suspension means that the student (1) needs to be in the office by 8:10 a.m.; (2) must have all books and materials that are needed for the day; (3) no food, drink or sleeping in the detention room (see #5 for lunchtime); (4) restroom and drinking fountain may be used during the day with the principal's/designee's permission; (5) lunch will be eaten with the principal/designee after scheduled student lunch period or bring a sack lunch; and (6) the suspension will end at 3:30 p.m.

An **out-of-school** suspension means that the student will be sent home and will not be admitted to school or school activities until the suspension expires.

Suspended students are not considered "students in good standing" (KSHSAA Rule 14) and are ineligible to compete in athletics or participate in activities until the entire suspension has ended. Students will be required to have a conference with the administration/designee before returning to class. All coursework must be handed in the first (1st) day the student is allowed to return to school—to the satisfaction of the instructors in order to receive credit.

All suspensions (in-school or out-of-school) will result in ineligibility for the week(s) during which suspension is served.

The type of suspension used will be determined on an individual basis and will be left to the discretion of the principal/designee.

Wichita County USD #467 Bullying Prevention/Intervention Plan

BULLYING / CYBER – BULLYING

The Wichita County Board of Education has determined that a safe, respectful, and healthy environment is necessary for students to learn and achieve high academic standards and for students to meet their individual goals for academic success. Students are expected to conduct themselves in a manner in keeping with their levels of development, maturity and demonstrated capabilities with a proper regard for the rights and welfare of other students and all school staff.

The 2008 Kansas State Legislature mandated that school districts adopt and implement a plan to address bullying behavior, including the use of any electronic devices for such behavior. The 2008 legislation also recommended school districts in Kansas adopt a curriculum for character development programs. USD #467 was in compliance with the 2008 Kansas Anti-Bullying, Cyber-Bullying legislation. The Kansas Legislation amended the anti-bullying statute (KSA 72-8256), July 1, 2013, to require schools in Kansas to include the following in the bullying policies:

- 1) Bullying means any intentional gesture or any intentional written, verbal, electronic or physical act or threat either by any student, staff member or parent towards a student or by any student, staff member that is sufficiently severe, persistent, or pervasive that such gesture, act or threat creates an intimidating, threatening or abusive educational environment that a reasonable person, under the circumstances, knows or should know will have the effect of :
 - Harming a student or staff member, whether physically or mentally
 - Physical - hitting, pushing, tackling, tripping, poking, tugging or tearing at clothes
 - Verbal – calling of names, making verbal threats of physical acts (whether or not they are carried out)
 - Social or Relational – ostracism, social exclusion, gossip/"trash talking"/rumor spreading, nonverbal gestures such as eye rolling, directed laughter, mimicking
 - Damaging a student's or staff member's property
 - Attacks on Property – writing on lockers, taking objects to keep or display publicly, destruction of property
 - Placing a student or staff member in reasonable fear of damage to the student's or staff member's property
- 2) Cyber-bullying – bullying by use of any electronic communication device through means including, but not limited to, e-mail, instant messaging, text messaging, blogs, mobile phones, pagers, online games and websites (Cyberbullying may often occur off school grounds, the majority of the time it is related to what is happening at school. If the bullying communication is disrupting the learning environment with discussion and/or gossip of the incident, the school may be involved with consequences for the behavior.)
- 3) Bullying behavior, including cyberbullying, will not be tolerated on school property, in a school vehicle, or at a school-sponsored activity or event
- 4) Bullying behavior or cyberbullying, will be documented from observations / other reporting and consequences will be enforced.

FIGHTING ON SCHOOL GROUNDS:

Each situation will be assessed on an individual basis. The school will attempt to notify the parents/guardians to pick the student up from school and speak with the administration or designee. Student may be suspended from one to ten days. Student may also be assigned long-term suspension or given expulsion. The principal or his/her designee has the option to determine if a student was exercising self-defense only during an altercation.

Students should be aware that name-calling is considered assault and name-calling combined with physical force is considered assault and battery.

STATE OF KANSAS WEAPONS AND DANGEROUS INSTRUMENTS: AS AMENDED BY THE 1999 LEGISLATURE K.S.A. 72-89a01.

“The term ‘weapon’ means any weapon which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of any weapon described in the preceding example; any firearm muffler or firearm silencer; any explosive, incendiary, or poison gas, bomb, grenade, rocket having a propellant charge of more than four ounce, missile having an explosive or incendiary charge of more than ¼ ounce; mine or similar device; any weapon which will, or which may be readily converted to, expel a projectile by the action of an explosive or other propellant, and which has any barrel with a bore of more than ½ inch in diameter; any combination of parts either designed or intended for use in converting any device into any destructive device described in the two immediately preceding examples, and from which a destructive device may be readily assembled; any bludgeon, sand club, metal knuckles or throwing star; any knife, commonly referred to as a switchblade, which has a blade that opens automatically by hand pressure applied to a button, spring or other device in the handle of the knife, or any knife having a blade that opens or falls or is ejected into position by the force of gravity or by an outward, downward or centrifugal thrust or movement, any electronic device designed to discharge immobilizing levels of electricity, commonly known as a ‘stun gun’.”

K.S.A. 72-89a02 – K.S.A. 72-8902, and amendments thereto, and subject to the other provisions of this section, each board of education in this state shall adopt a written policy requiring the expulsion from school for a period of not less than one year any pupil determined to be in possession of a weapon at school, on school property, or at a school supervised activity.

K.S.A. 72-8902 - A student found to have personal possession of a “weapon” as described above while at school, on school property, or at a school-supervised activity will be subject to the following:

1. Parents and law enforcement shall be notified.
2. If a student is a juvenile they will be referred to social rehabilitation services (SRS) or juvenile justice authorities, or other outside agencies
3. The student shall be suspended from school pending an expulsion hearing with the board of education
4. Expulsion for not less than one year under federal law

WEAPONS AND DANGEROUS INSTRUMENTS OTHER THAN THOSE STATED ABOVE

A student shall not knowingly possess, handle, or transmit any object that can reasonably be considered a weapon or destructive device which could cause bodily injury or illness on the school grounds, during, before, or after school hours; on the school grounds at any other time when the school is being used by school personnel or event. This rule does not apply to normal school supplies like pencils or compasses, unless used as a weapon, but does apply to all types of fireworks, matches, lighters, any knife, or other object of no reasonable use to the student at school. Weapons unintentionally brought on school property will be immediately reported to the principal. Proper law enforcement and medical authorities will be notified for any follow-up actions, which are deemed necessary.

Violation of this policy may result in suspension from one to 186 days as determined by the administration when considering the circumstances of each situation.

SEARCH AND SEIZURE

Students have limited control over their lockers, desks, work areas, or any other designated assigned areas. Lockers, desks, work areas, etc., are the property of the school district. Therefore, school officials have the right, upon “reasonable suspicion”, to search and seize as necessary. Students have control of their personal possessions; however, this control is not meant to exclude school officials when there is “reasonable suspicion” to believe that such possessions are illegal, dangerous, or disruptive. Students have no reasonable expectations of privacy in their lockers.

PROCEDURES FOR ADMINISTRATIVE IMPLEMENTATION OF SEARCH AND SEIZURE

1. The principal, or his designee, will make the decision to conduct a search of a student’s personal property.
2. The principal will attempt to notify the parents as soon as possible. If a weapon is found, law enforcement shall be notified.
3. A staff member must be, and the student should be, a witness to the search and seizure, which will be conducted in the most discretionary manner possible.
4. The search may include not only the designated space but also items found within that space.
5. Items considered to be illegal, illicit, dangerous, or disruptive will be confiscated. Storage, return, or destruction of seized items is left to the judgment of the principal, subject only to legal impoundment.

ACADEMIC DISHONESTY

Academic dishonesty—as in cheating or plagiarism—is not acceptable. Cheating includes copying another student’s work as one’s own. Plagiarism is the use of another person’s original ideas or writing without giving credit to the true author as determined by the assigning teacher. A student who engages in any form of academic dishonesty may be subject to receiving an “F” or failing grade as well as other disciplinary measures determined by the administration/teacher.

VANDALISM/PROPERTY DAMAGE

The school shall seek restitution according to law for loss and damage sustained by the school. Payments will be made to the business office, and accounts shall be kept. Accounts not paid in full within a specified and agreed-upon time may be processed for legal action. This includes any part of the school building and premises including but not limited to books, lockers, equipment, computers, and other items.

SUSPENSION AND EXPULSION

SECTION 1. Authorization of Suspension

The Board of Education of USD #467 authorizes any building principal or superintendent to suspend any student for not more than ten (10) days or to recommend a long-term suspension or expulsion. Pursuant to Kansas Statutes, any student who has been long-term suspended or expelled for possession of a weapon, use, sale, or distribution of drugs or controlled substances or behavior resulting in or substantially likely to have resulted in

serious bodily harm will have his/her name reported to the Division of Vehicles which could result in driver's license suspension.

- (f) Or disobedience of an order of a teacher, peace officer, school security officer or other school authority, when such disobedience can reasonably be anticipated to result in disorder, disruption or interference with the operation of any public school or substantial and material impingement upon or invasion of the rights of others.

SECTION 3. Suspension of Student

Before a building principal or superintendent suspends a student, he shall investigate the case thoroughly and interview the offender, witnesses, and those offended.

A written notice of any short-term suspension and the reasons therefore shall be given to the student involved and his or her parents and guardians within twenty-four (24) hours after such suspension has been imposed. Verbal notice should be given to the parents as soon as possible. A copy of the notice shall be given to the superintendent.

SECTION 4. Expulsion of Pupils

- (a) A principal or superintendent may recommend extended suspension or expulsion for violations listed in Section 2.
- (b) In any case where expulsion is recommended, the Superintendent of USD #467 shall hold a hearing concerning the case. The hearing shall be conducted in accordance with K.S.A. 72-8901 through 72-8906, the regulations of the Board, and the following:

- (8) Written notice of the result of any hearing resulting in an expulsion shall be given to the student and his or her parents or guardians within twenty-four (24) hours after the determination thereof.

SCHOOL SAFETY VIOLATIONS:

SB 129, The Superintendent is required to notify the appropriate law enforcement agency of any student who is expelled from school and the law enforcement agency is required to notify the Division of Motor Vehicles of the Kansas Department of Revenue within ten days. The Division of Motor Vehicles will suspend the student's driver's license or privilege to operate a motor vehicle for a year.

SECTION 5. The appeal of the Findings of the Board of Education Hearing

- (a) Any student who has been suspended or one of his or her parents or guardians may appeal such long-term suspension or expulsion to the Board of Education of the school district by filing a written notice of appeal with the Clerk of the Board of Education within ten (10) calendar days after receiving the written notice specified above.
- (b) Any such appeal shall be heard by the Board of Education within twenty (20) calendar days after such notice of appeal is filed. The student and his parents or guardians shall be notified in writing of the time and place of the appeal hearing at least five (5) calendar days prior thereto.
- (c) The appeal shall be conducted under formal hearing rules. The Board of Education shall render its decision of any such appeal not later than five days after the conclusion of the appeal hearing.

K.S.A. 72-8902 - Duration of suspension or expulsion; notice; hearing, the opportunity afforded, waiver, time, who may conduct.

- A. A suspension may be for a short term not exceeding ten (10) school days, or for an extended term not exceeding 90 school days. An expulsion may be for a term not exceeding 186 school days. If a suspension or expulsion is for a term exceeding the number of school days

remaining in the school year, any remaining part of the term of the suspension or expulsion may be applied to the succeeding school year.

(1) Except as authorized in provision (2), no suspension for a short term shall be imposed upon a pupil without giving the pupil notice of the charges and affording the pupil a hearing thereon. The notice may be oral or written and the hearing may be held immediately after the notice is given. The hearing may be conducted informally but shall include the following due process requirements:

- a) The right of the pupil to be present at the hearing;
- b) The right of the pupil to be informed of the charges;
- c) The right of the pupil be informed of the basis for the accusation; and
- d) The right of the pupil to make statements in defense or mitigation of the charges or accusations. Refusal of a pupil to be present at the hearing will constitute a waiver of the pupil's opportunity for a hearing.

(2) A short-term suspension may be imposed upon a pupil forthwith, and without affording the pupil a hearing if the presence of the pupil endangers other persons or property or substantially disrupts, impedes, or interferes with the operation of the school.

- B. A written notice of any short-term suspension and the reason, therefore, shall be given to the pupil involved and to the pupil's parent or guardian within 24 hours after the suspension has been imposed and, in the event the pupil has not been afforded a hearing prior to any short term suspension, an opportunity for an informal hearing shall be afforded the pupil as soon thereafter as practicable but in no event later than 72 hours after such short term suspension has been imposed. Any notice of the imposition of a short-term suspension that provides an opportunity for an informal hearing after such suspension has been imposed shall state that failure of the pupil to attend the hearing will result in a waiver of the pupil's opportunity for the hearing.
- C. No suspension for an extended term and no expulsion shall be imposed upon a pupil until an opportunity for a formal hearing thereon is afforded the pupil. A written notice of any proposal to suspend for an extended term or to expel from school and the charges upon which the proposal is based shall be given to the pupil proposed to be suspended or expelled from school, and to the pupil's parent or guardian. Any notice of a proposal to suspend for an extended term or to expel from school shall state the time, date, and place that the pupil will be afforded an opportunity for a formal hearing, and that failure of the pupil and the pupil's parent or guardian to attend the hearing will result in a waiver of the pupil's opportunity for the hearing. The hearing shall be held not later than 10 days after the date of the notice. The notice shall be accompanied by a copy of this act and the regulations of the Board of Education adopted under **KSA-72-8903**, and amendments thereto.
- D. Whenever any written notice is required under this act to be given to a pupil or to a pupil's parent or guardian, it shall be sufficient if the notice is mailed to the address on file in the school records of the pupil. In lieu of mailing the written notice, the notice may be personally delivered
- E. A formal hearing on a suspension or expulsion may be conducted by any person or committee of persons authorized by the Board of Education to conduct the hearing.

KSA 72-8903 - Procedural due process requirements; record of appeal, costs; report of findings and the result of hearing; information regarding behavior improvement programs.

- A. The formal hearing provided for in K.S.A. 72-8902, and amendments thereto, shall be conducted in accordance with regulations relating thereto adopted by the board of education. Such regulations shall afford procedural due process including, but not limited to, the following:
1. The right of the pupil to have a counsel of the pupil's own choice present and to receive the advice of such counsel or another person whom the pupil may select;
 2. The right of the parents or guardians of the pupil to be present at the hearing;
 3. The right of the pupil and the pupil's counsel or advisor to hear or read a full report of the testimony of witnesses against the pupil;
 4. The right of the pupil and the pupil's counsel to confront and cross-examine witnesses who appear in person at the hearing, either voluntarily or as a result of the issuance of a subpoena;
 5. The right of the pupil to present the pupil's own witnesses in person or their testimony by affidavit;
 6. The right of the pupil to testify on the pupil's own behalf and give reasons for the pupil's conduct;
 7. The right of the pupil to have an orderly hearing; and
 8. The right of the pupil to a fair and impartial decision based on substantial evidence.
- B. In all extended-term suspension and expulsion from school cases, there shall be made a record of the hearing of an appeal of the suspension or expulsion, whichever is applicable, by mechanical or electronic recording or by an official court reporter, and the costs thereof shall be paid by the school district.
- C. At the conclusion of a formal hearing, which results in a suspension for an extended term or an expulsion, the person or committee conducting the hearing shall make a written report of the findings and results of the hearing. The report shall be directed to the board of education of the school district and shall be open to the inspection of the pupil who is suspended or expelled and if the pupil is a juvenile, to the parents or guardians and counsel or other advisor of the pupil. If the pupil is an adult, the report shall be open to the inspection of the parents or guardians and counsel or other advisors of the pupil only upon written consent of the pupil. Whenever a formal hearing results in suspension for an extended term or expulsion, the person or committee conducting the hearing may make a finding that returns to school by the pupil, pending appeal or during the period allowed for notice of appeal, is not reasonably anticipated to endanger the safety of others, to cause continuing repeated material disorder, disruption or interference with the operation of the school, or to substantially or materially impinge upon or invade the rights of others, in which case the pupil may return to school until the period for filing a notice of appeal has expired with no notice filed, or until the determination of any appeal if a notice of appeal is filed. Whenever the person or committee conducting a hearing fails to make the findings specified above, the report of the hearing shall provide that the suspension or expulsion of the pupil shall continue until appeal therefrom is determined or until the period of suspension or expulsion has expired, whichever occurs sooner. Any such pupil shall be provided with information

concerning services or programs offered by

public and private agencies that work toward improving those aspects of the pupil's attitudes and behavior that contributed to the conduct upon which the suspension or expulsion was based. If the pupil is a juvenile, the information shall also be provided to the parents or guardians of the pupil.

KSA 72-8904 - Notice of hearing results: appeal to the board of education: hearing officers: procedure.

Any such appeal shall be heard by the Board of Education, or by a hearing officer appointed by such board, not later than 20 calendar days after such notice of appeal is filed. The pupil and the pupil's parents or guardians shall be notified in writing of the time and place of the appeal hearing at least five days prior thereto. Such appeal shall be conducted under rules, which are consonant with K.S.A. 72-8903, and amendments thereto. The decision on any such appeal shall be rendered not later than five days after the conclusion of the appeal hearing.
- C. For the purpose of hearing an appeal of an extended-term suspension or an expulsion, the Board of Education may appoint one or more hearing officers. Any such hearing officer shall be a member of the Board of Education, a certified employee of the school district, or an attorney admitted to the practice of law in this state. Any such appointment shall apply to a particular hearing or to a set or class of hearings as specified by the Board of Education in making an appointment. Whenever a hearing officer appointed under the authority of this section hears any appeal, the hearing officer shall prepare a written report thereon to the Board of Education. After receiving any such report, the Board of Education shall determine the matter with or without additional hearing.
- D. Any matter determined by the Board of Education in accordance with this subsection shall be valid to the same extent as if the matter were fully heard by the Board of Education without a hearing officer.

KSA 72-8905 - Non-application of compulsory attendance law.

The provisions of **KSA 72-1111**, and amendments thereto, shall not apply to any pupil while subject to suspension or expulsion from school pursuant to the provisions of this act.

Any hearing officer, any member of a committee or the board of education holding a formal hearing or an appeal hearing under this act may and, upon the request of any pupil for whom any such hearing is held or upon the request of the pupil's parents or guardians or counsel, shall petition the chief judge of the judicial district in which the school district is located requesting that the clerk of the district court be authorized to issue subpoenas for the attendance and testimony of the principal witness or witnesses and the production of books, records, reports, papers and documents relating to the proposed suspension or expulsion from school in the same manner as provided for the issuance of subpoenas in civil actions pursuant to K.S.A. 60-245, and amendments thereto.

KSA 72-8907 - Refusal to admit suspended or expelled pupil authorized.

- A. A pupil who has been suspended or expelled from school by any school district may be refused admission to school in any other school district, regardless of residency, until such time as the period of suspension or expulsion has expired.

NARCOTICS, DRUGS, AND CONTROLLED SUBSTANCES

PHILOSOPHY: All students have a right to attend school in an environment conducive to learning. The use of alcohol, tobacco, and other illegal drugs or the improper use* of legal drugs is recognized to be extremely harmful to the individual who uses them and to those around that individual. A student cannot learn to his/her full potential while under the influence of these substances. It is further recognized that all students have a right to be educated in a drug-free environment. Therefore, the use (including being under the influence of), possession, or distribution (including sale and given without remuneration) is forbidden in school, on school property at any time, at school-sponsored participatory events (whether the event is on school property or elsewhere), or on school transportation.

*Improper use is defined as 1) prescription drugs given to, sold, or used by someone other than the person for whom the prescription was written, or in a dosage other than the dosage written on the prescription label; 2) over-the-counter drugs-dosage other than that recommended on the label.

PREVENTION: Recognizing the extensive use and promotion of alcohol, tobacco, and other drugs in our society, the school has an obligation to prepare students for decision-making

against

drug and alcohol use. This policy ensures the existence of a prevention program in the schools using multiple strategies to provide accurate information, develop life skills, train facilitators, and educate parents. Drug education units shall be integrated within the standard curriculum at all grade levels.

The goal of this policy's drug/alcohol prevention program is healthy, responsible youth capable of resisting alcohol and other drugs and capable of reaching their academic potential.

INTERVENTION: The School District will work through curriculum and classroom activity, administration and faculty effort, and disciplinary procedures to prevent and intervene in the abuse of alcohol and drugs by members of the school population.

As an extension of this policy, a designated intervention team will use the following school guidelines, with reasonable judgment, when responding to alcohol and drug-related situations.

These guidelines have been created as one part of the alcohol and drug policy. They are intended to provide a consistent means for effectively responding to alcohol and drug-related situations that may occur at school or at school-sponsored events. They have been written with due consideration for the legal rights and responsibilities of administrators, faculty, students, and parents who may find themselves involved in such situations. Student behavior, as it relates to alcohol, tobacco (including smokeless), illegal drugs, other controlled substances, look-alike drugs, being high or intoxicated, in possession of, using, or selling any of the substances listed above is a violation of school policy. Students who assist in the possession, use, or sale of the substances listed will be subject to disciplinary action.

All USD #467 students will be covered under this policy from the first day of school (activities) until the last day of school (activities). USD #467 will not discipline or be involved in the punishment of students in instances that occur during the time school is normally not in session (summer/weekends/holidays and/or non-school activities). The exception is those students involved in any recognized KSHSAA-sponsored activity. Students who are participants in activities recognized by KSHSAA may be disciplined for any infraction that occurs at any time said sport/activity is in session. This discipline policy is in effect for weekends and holidays if the activity season extends over those time periods. (KSHSAA Rule 14) Consequences will be implemented for violations of this school policy when substantiated and after the substantiated violation is reported to the student. "Substantiated" is defined as an Actual witness to the violation by a coach, activity sponsor, school administrator, teacher, law enforcement officer, or self-reported. A student's parents/guardians may also report violations to the school administration.

All students participating in any school-sponsored activity for Wichita County Junior-Senior High School will be held to the above State requirements and KSHSAA Standards.

CONSEQUENCES FOR SUCH BEHAVIOR – THE FOLLOWING RULES APPLY TO ALL ENROLLED STUDENTS INCLUDING THOSE INVOLVED KSHSAA ACTIVITIES.

1. The parent/guardian of the student will be notified. If no parent or legal guardian is available, notify the person who has responsibility for the student.
2. The applicable law enforcement agency will be notified of a drug or alcohol violation at the discretion of the building principal.

3. If a law enforcement agency is not notified, a written record of the violation and the disciplinary action taken must be made by the principal/designee and such record kept in the student's file.
4. All search-and-seizure action will be taken in accordance with the guidelines set forth in this policy.
5. In the case of a medical emergency related to substance abuse, the appropriate health professional, as well as parents or legal guardians, will be contacted. In the case where the parents or legal guardian cannot be contacted, the person designated on school records, as a contact person in the case of emergency will be informed. All information available will be made known to the parent or guardian, physician, and all others responsible for care and treatment.
6. A staff member shall request the assistance of the intervention team, principal, or his/her designee when they observe a disoriented student, one who does not appear to have reasonable control of self, or one who exhibits behaviors of concern or any other reasonable suspicious behaviors. In addition, the principal or designees will:
 - a. Gather as much information and documentation as possible within time constraints imposed by individual circumstances.
 - b. Remove the student from the class/activity, etc., and then question/confront the student about the behavior as soon as possible.
 - c. **Whenever possible, more than one staff member should question/confront the student about the behavior, appearance, odor, or drug use as soon as possible.**
 - d. Inform the student of the possible consequences of her/his behavior.
 - e. Suspend the student in school (if necessary) until a parent conference is scheduled.
 - f. In the case of a medical emergency, the school administration will call an ambulance for which the parents are financially responsible.
7. Students who are concerned about their substance abuse and notify faculty or staff will not be subject to disciplinary action. Confidentiality will be observed while seeking and finding support for such a student. Self-disclosure can only be used once to avoid disciplinary action.

PHILOSOPHY:

Wichita County Junior-Senior High School strongly recommends that students with chemical abuse or misuse problems seek professional evaluation and treatment from trained chemical dependency counselors or a licensed physician in chemical dependency. Because we believe that chemical dependency is preceded by misuse, such early intervention can benefit the student before significant harm or dependency results. Students agreeing to be evaluated and seek treatment at the parents' expense will be provided help finding agencies that can do the assessment and treatment. Students and parents must sign a waiver for "release of information" for counselor recommendation and verification of compliance. Fees for the assessment and treatment are the responsibility of the student and parents.

USE, POSSESSION, AND/OR DISTRIBUTION of CONTROLLED SUBSTANCES:

If the student is found to have been using, in possession of, and/or distributing a controlled substance on school grounds or while at or going to school functions or activities, the student's parents, the law enforcement agency, the county attorney and/or the SRS and any counselor involved with the student will be notified, and the student will be subject to progressive discipline dependent upon the sequence/seriousness of the violation.

1. **TOBACCO:** The discipline for the use and/or possession of tobacco products and electronic cigarettes will be progressive and dependent upon the sequence/seriousness of the violation.
 - a. Suspension for 1-3 school days, in/out of school, and/or cannot attend school functions and/or activities for twenty-five (25) school days.
 - b. Suspension for 3-5 school days, in/out of school, cannot attend school functions and/or activities for forty-five (45) school days.
 - c. Suspension for 5-10 school days, in/out of school; cannot attend school functions and/or activities for ninety (90) school days.
 - d. Students and parents agree to participate in at least one counseling session (at the parents' expense) with a qualified professional or chemical dependency agency and follow the recommendations. (A plan may be formulated with parents, principal, counselors, and the student for reinstatement in school activities upon completion of treatment or as a part of treatment).
 - e. Ten (10) days out of school suspension and Expulsion from school are recommended for repeated violations.
2. **DRUGS AND ALCOHOL:** The discipline for violation of the Drugs and Alcohol policy will be progressive and dependent upon the sequence/seriousness of the violation.
 - a. Suspension for 3-5 school days, in/out of school, cannot attend any school functions and/or activities for forty-five (45) school days.
 - b. Suspension for 5-10 school days, in/out of school, cannot attend school functions and/or activities for ninety (90) school days.
 - c. Students and parents agree to participate in at least one counseling session (at the parents' expense) with a qualified professional or chemical dependency agency and follow the recommendations. (A plan may be formulated with parents, principal, counselors, and the student for reinstatement in school activities upon completion of treatment or as a part of treatment).
 - d. Ten (10) days out of school suspension and Expulsion from school is recommended for repeated violations.

DRUG/ALCOHOL SCREENING

- A. Possession, sale, use, distribution, being under the influence, or having consumed alcoholic beverages (including cereal malt beverages) and/or illicit drugs*, by students on school grounds, at any attendance center or at school-sponsored events is prohibited by the Drug-Free Schools and Communities Act and USD #467 Board of Education policy (Drug and Alcohol Education and Prevention). USD #467 students attending any school-sponsored

activity, regardless of location, may be subject to a BOE-approved alcohol and/or illicit drug screening procedure as follows:

- All students could be screened prior to entering the activity;
- Students may be screened at any time if the school administration or sponsor has a reasonable suspicion** of alcohol and/or illicit drug* consumption.

B. USD #467 students also may be subject to screening for alcohol and/or illicit drugs consumption at any attendance center during regular school hours or on school grounds at any time, if the school administration or staff has a reasonable suspicion** that the student has consumed alcohol and/or illicit drugs. If there is reasonable suspicion, the student will be confronted, asked to be tested, ask parents for permission to test or call law enforcement.

*For the purposes of this policy, an illicit drug shall be considered to be:

- Illegal drug;
- Prescription medication(s) which is (are) not being used by the person for whom it (they) was (were) prescribed or are being used inappropriately by the individual they are prescribed to;
- Prescription medication(s) which is (are) not being used in the manner or method for which it (they) was (were) prescribed.
- Alcohol

**Reasonable Suspicion

Reasonable suspicion may include, but is not limited to the following as detected by a school sponsor or is reported by a school employee to a school administrator:

- odor of liquor
- atypical behavior
- slurred speech
- atypical eye behavior
- difficulty with balance/equilibrium
- observed drinking from or in possession of a suspicious container

- Will be denied entrance to, or will be removed from the activity, attendance center, or school grounds,
- Will receive consequences according to USD #467 Policy
- Parents/guardians will be informed of the positive test and will be required to remove the student from school and/or activity. The applicable law enforcement agency will be notified of a possible drug or alcohol violation at the discretion of the building principal.

Students who refuse to be screened for the consumption of alcohol and/or illicit drug use:

- Will not be forced to take part in the screening procedure(s), but shall be denied entrance to, or removed from the activity, attendance center or school grounds.
- May receive consequences according to approved USD #467 policy.

- Their parents/guardians will be contacted and informed of the refusal.
- If reasonable suspicion of alcohol and/or illicit drug consumption exists, the parent/guardian will be contacted and required to remove the student from the school and/or activity. The applicable law enforcement agency will be notified of a possible drug or alcohol violation at the discretion of the building principal.

Policy and Procedures for Initial and Random Urine Drug Testing

Recognizing that observed and suspected use of alcohol and illicit drugs by USD 467 students is a serious concern, a program of deterrence will be instituted as a proactive approach to a drug-free school. Likewise, students using illegal drugs pose a threat to their own safety, as well as to that of other students. The program is designed to create a safe, drug-free, environment for Students and assist them in getting help when needed. The purpose of this program is fourfold:

- a. to provide a safer environment for all students;
- b. to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs and alcohol;
- c. to encourage students who use drugs and alcohol to participate in drug treatment programs and;
- d. to prevent the impact drug and alcohol use has on the learning centers of the brain, allowing students to achieve their full academic potential while a student within USD 467.

PROCEDURES FOR STUDENTS

Informed Consent for Testing

At the beginning of each year/season, or when a student moves into the District, students and their parent/guardian/custodian will complete and sign the **Wichita County Unified School District 467 Code of Conduct and Expectations Informed Consent Agreement**. No student may participate in a competitive or non-competitive extracurricular activity, or school-sponsored event or drive or park a vehicle on school property until this form is properly executed and on file with the USD 467.

Students Subject to Random Drug Testing

All students participating in competitive and non-competitive extracurricular activities, and school-sponsored events, and those driving and parking on USD 467 property shall be subject to random drug testing during the school year. Students will be randomly tested, up to a bi-weekly basis, anytime during the school year. Any student who refuses to submit to urine drug testing will be considered a positive test.

A. First Positive Result

- 1) A positive result from the MRO or an altered sample will constitute a first positive. The student participant shall be suspended from participation in all competitive and noncompetitive extracurricular activities including all performances and competitions, and parking on campus starting with the earliest possible day as determined by the school official for a minimum of ten (10) school calendar days (excluding vacations) and a maximum of the remainder of the school year.
- 2) A student may be reinstated following the minimum time after written proof is secured that the student has made an appointment or has had a mental health evaluation by a counselor with expertise in substance abuse counseling and evaluation. The student will also submit to three (3) random follow-up drug tests at the

parent/guardian's expense. Failure to comply will result in suspension from activities and/or driving privileges for one calendar year.

B. Second Positive Result

1) A second positive result by MRO ruling or adulteration will result in the student being suspended from participation in all competitive and noncompetitive extracurricular activities including all performances and competitions, and parking on campus for the remainder of the current school or activity year.

2) If and only if, the student and or parent/guardian can provide proof of **COMPLETION** of a comprehensive substance abuse program (separate and different from any program enrolled in or completed regarding first offense and subsequent approval by the school officials), the student may request in writing to be considered to participate in upcoming (not current) extracurricular activities at the final discretion of the committee which will include the head coach/sponsor of the activity, principal, activities director, counselor, and other district administrator. The student will also submit to three (3) random follow-up drug tests at the parent/guardian expense.

C. Third Positive Result

A third positive result by MRO ruling or adulteration will result in the student participant being barred from participation in any competitive and noncompetitive extracurricular activity and/or parking on campus for one (1) calendar year. Prior to reinstatement the student must repeat the assessment and show significant progress toward rehabilitation from a certified chemical dependency program. The three (3) follow-up drug tests will be repeated at the parent/guardian expense.

D. Self-Referral

A student who refers themselves prior to receiving a positive result from the MRO will comply with the requirements set in **section A** of this policy, except there will be no forfeiture of the activity and/or parking privileges. Self-referrals may be used as a first offense only, subsequent positives following a referral will continue to actions stated in **section B** of this policy. A student may only self-refer one time while a student in the Wichita County Unified School District 467.

No student will be penalized academically for testing positive for illegal drugs or banned substances. The results of drug tests pursuant to this policy will not be documented in any student's academic records.

CONFIDENTIALITY

The practice of confidentiality is essential to the effectiveness of any substance abuse prevention/intervention program. Information about student drug use, drug treatment, or other personal problems should be shared only with those staff members who "need to know" because of their involvement or relationship with the student. The "need to know" is best determined by the principal.

The concept of limited confidentiality should always be shared with the students involved. Limited confidentiality is the sharing of information, which will be held in confidence by the listener, with the exception of information, which could result in danger to the student, or to someone else. This information may be required to be divulged by law.

SCHOOL'S COMMITMENT

Although parents have the ultimate, primary responsibility for their children's drug use, individual differences in parental standards regarding their children's drug and alcohol using behavior in non-school related settings cannot be permitted to compromise the school's fundamental commitment to maintaining a drug-free educational environment. The "in loco parentis" concept provides the basis for school officials and teachers to act, as necessary, to protect and educate each student. Thus, the purpose of the above policy is to provide a clear message to students, parents, and the citizens of this community that the use, possession, distribution, or being under the influence of alcohol or drugs will not be tolerated in the school, on school grounds, and during school related functions.

COMMUNICATIONS POLICY

Underlying this policy is a well-defined communication system among the schools, parents, community service agencies, and the students, which permits the appropriate flow of information among all agencies and individuals. The policy will be stated in the student handbook and should be communicated through:

- Meetings with parents
- Meetings with students
- Orientations
- Athletic group meetings
- Newsletters
- Student handbooks
- Faculty handbooks
- Local newspaper

Students who become ill or have an accident during school hours should report to the nurse's office. Parents/guardians will be contacted by the school nurse or designated person in case of illness. No student who checks out during the school day for illness will be eligible to participate in any extra-curricular activity that day. The principal or his/her designee, may send a student home sick, if the health team is unavailable, and with the parents/guardians consent. Directions for fire drills are posted in each classroom and at other places, which are accessible to all persons in the building. Students are informed as to the fire drill routine prior to the drill. The siren will sound until everyone is out of the building. In the event of a tornado drill, these procedures should be followed: Silence is necessary so that the alarm and instruction can be heard. Students should exit classrooms in an orderly fashion and proceed to the multi-purpose room or boys' locker room by the west stairway. Since the greatest danger in a tornado is flying debris, everyone should stay away from windows and glass doors.

EMERGENCY SAFETY INTERVENTIONS: The board of education is committed to limiting the use of Emergency Safety Interventions (“ESI”), such as seclusion and restraint, with all students. “Emergency Safety Intervention” is the use of seclusion or physical restraint when a student presents an immediate danger to self or others. If said book is returned damaged, no refund will be given. If said book is returned in good condition after the initial four weeks, the student may keep the book. No refund will be made after the initial four weeks period.

LOCKERS: Students have the use of their assigned lockers, but the lockers remain the exclusive property of the school. School authorities have the right and the duty to inspect the lockers when they believe that something of an illegal nature may be stored in a locker or to remove school property from a locker. Students may not attach any permanent items or write with permanent ink or markers inside or out on lockers. All lockers should be kept clean so that no papers, books, book bags, or coats hang out of closed doors. Doors should be completely closed when not in use. At other times, it may be necessary to alter the times of operation of the buses.

Pupils transported in a school bus are under the authority of the driver and are to obey his or her instructions. The board of education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, including sexual harassment. Sexual harassment shall not be tolerated in the school district. Sexual harassment of employees or students of the district by board members, administrators, certificated and support personnel, students, vendors, and any others having business or other contact with the school district is strictly prohibited.

Sexual harassment is unlawful discrimination on the basis of sex under Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964, and the Kansas Acts Against Discrimination. All forms of sexual harassment are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It shall be a violation of this policy for any student, employee or third party (visitor, vendor, etc.)

to sexually harass any student, employee, or other individual associated with the school. It shall

further be a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint lodged under the provisions of this policy.

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature when made by a member of the school staff to a student or when made by any student to another student when: (1) submission to such conduct is made, explicitly or implicitly, a term or condition of the individual's education;

(2) submission to or rejection of such conduct by an individual is used as the basis for academic decisions affecting that individual; or (3) such conduct has the purpose or effect of interfering with an individual's academic or professional performance or creating an intimidating, hostile or offensive academic environment.

Sexual harassment may result from verbal or physical conduct or written or graphic material. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extra-curricular activities, etc.

The district encourages all victims of sexual harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of sexual harassment and take prompt corrective action to end the harassment.

The building principal or district compliance coordinator shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination complaint procedure. (See KN)

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual harassment under the definition outlined above. Unacceptable student conduct may or may not constitute sexual harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct.
